On 12/9/11 the State of California [Wildlife Conservation Board](#) (WCB) granted \$5,010,000 towards the purchase of Webber Lake and Lacey Meadows by the [Truckee Donner Land Trust](#) and [The Trust for Public Land](#)! This is an historic grant for conservation in the northern Sierra. WCB's commitment, together with funds already committed to the project by the Northern Sierra Partnership and the [Sierra Nevada Conservancy](#), brings the partners to

within \$500,000 of the funds needed to preserve this outstanding property at the headwaters of the Little Truckee River.
